You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.

We've got over 300 good, steady jobs.

Jobs in construction, transportation, communications, computers, law enforcement.

Jobs for surveyors, teletype-writer operators, artillerymen, TV repairmen. Cooks, electricians, medical aides, meteorologists. Motor and missile maintenance men.

Jobs for young men. And young women.

Jobs in Europe, Panama, Alaska, Korea. And just about any place in the States.

We'll train you to do the jobs. Train you well, in good schools, under excellent instructors, with the best equipment obtainable.

And you get full pay while you train.

You also get unusually good fringe benefits, including a chance to continue your education. In many cases at our expense. In most cases with at least 75 percent of your tuition paid.

And if you qualify we'll give you your choice of training. We'll put it in writing, before you sign up. To get complete details call or see your local Army Representative.
